PROJECT BACKGROUND

Malaysia is witnessing a surge in entrepreneurship, driven by government backing and a wave of tech-centric startups. The nation is quickly transforming into a global hub for innovative ventures, making it an ideal destination for ambitious entrepreneurs to bring their business visions to life. For every entrepreneur, especially young adults who are still inexperienced in the industry, will commonly face issues in terms of financial management. The problem turns imminent when an entrepreneur has to operate several businesses, where a substantial quantity of data is being produced all the time.

Any competent entrepreneur will understand the importance of storing and managing their financial data using a reliable database management system (DBMS). A DBMS for the finance department should have the capability to handle diverse financial data sets, including revenue, profit margins, product and service details, and transaction details. It must provide a structured framework for categorizing and organizing this information, facilitating efficient retrieval and analysis. For the assessment of financial development, entrepreneurs will require a DBMS that embodies features such as data integrity, scalability, and versatility. Therefore, it is obvious that entrepreneurs always aim to leverage their financial data effectively, steering their businesses toward sustained success and resilience in a dynamic marketplace.

OBJECTIVE

The objective of this project 'Professional Entrepreneur Development Financing System' is to establish an efficient and effective system for providing financial support and resources to those who want to pursue entrepreneurship. By attending to the specific financial need of the entrepreneurs, the goal is to promote their growth, sustainability, and success

1. To assist and support the existing or any new entrepreneurs in growing their businesses by offering a system to enter new markets or launching new products line.
2. To facilitate access to capital for aspiring entrepreneurs to launch and establish their startups.
3. To provide funding options that can cater to diverse needs of entrepreneurs.

SCOPE OF THE PROJECT

System Scope

1. Professional Entrepreneur Development Financing System is a system where work distribution can be managed effectively with stored all data and information of employees to provide an ease understanding system.
2. The system conducts a comprehensive analysis of relevant requirements related to the company, entrepreneurs, and finance.
3. By storing all the data such as company, service, product, and project profile make the system easy to update and modification can be implemented without causing disruption.

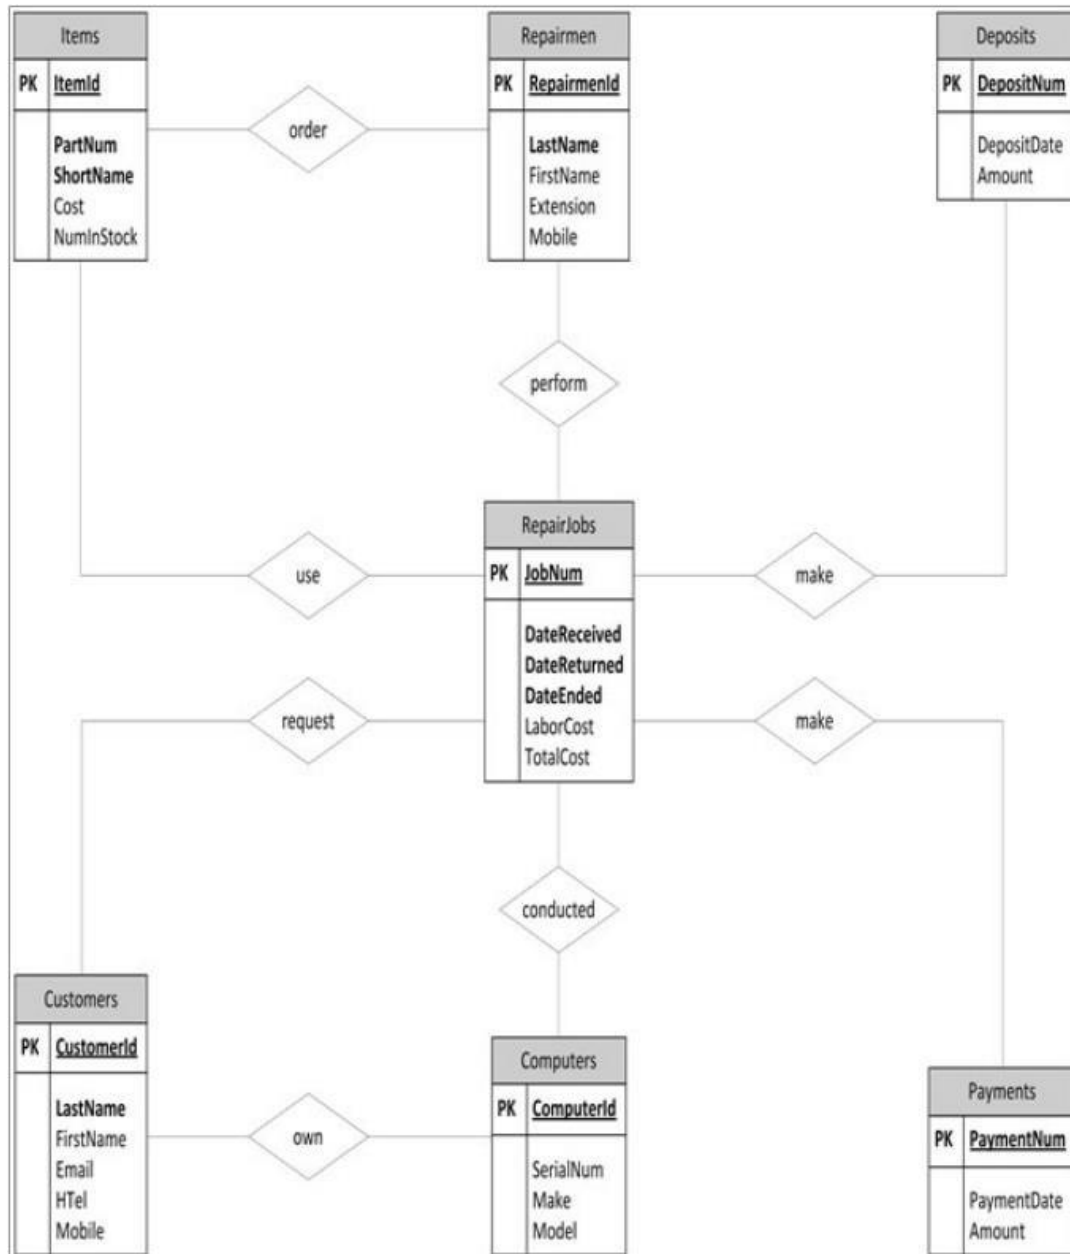

User Scope

User scope for a system refers to the range and uniqueness of functionalities, features, and interactions that are designed to meet the needs and expectations of the system's user.

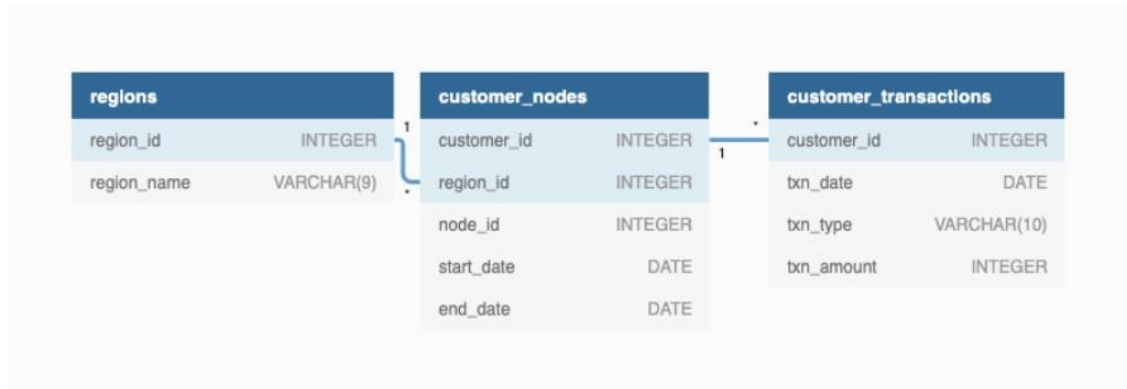

1. The management can manage and record all the entrepreneur and company information.
2. The company can access their finance and project information.
3. The company can access their products, services, product buyer and service buyer.
4. The system can regularly review and refine processes, based on the feedback.

PROJECT PLANNING

Name	Student ID	Task Distribution
CHONG JIN JYE	SD22048	<ul style="list-style-type: none">- write Introduction- write Background-find relevant case study-write comparison for 2 study case- create an ERD- determine the entities, relationships, and attributes.- collaborate with the team to finalize the EERD- write MySQL queries- responsible for overall project coordination
ANG MEI YING	SD22061	<ul style="list-style-type: none">- find relevant case study- collaborate with the team to finalize the ERD- create an EERD- handle data preparation
LOW ANN GIE	SD22059	<ul style="list-style-type: none">- write Data Dictionary- write Meeting Report- write MySQL queries-write normalization- ensure deadlines are met and resolve any issues that arise.
NOR ADLIN SOFEA BINTI NOR HAIRUDIN	SD22024	<ul style="list-style-type: none">- write Objective- write Scope- find relevant case study- collaborate with the team to finalize the ERD and EERD- write Business Rule- write MySQL queries- identify and report any bugs or issues

MEETING REPORT

Group Meeting Report [1]			
Date: 13/10/2023	Venue: Amphitheatre	Attendees: 1. Chong Jin Jye 2. Ang Mei Ying 3. Low Ann Gie 4. Nor Adlin Sofea Binti Nor Hairudin	
Time: 12:00pm – 2:00pm	SCL Leader: Ang Mei Ying		
No.	Task List	Progress Task / Table Involves / Remarks	Person in Charge (PIC)
1.	Decide topic for our project	Several ideas were considered before finalising the chosen topic. Finally, we choose the 'Professional Entrepreneur Development Financing System' as our topic.	All team members
2.	Finding relevant information about the chosen topic	Team members are actively involved in researching and gathering information.	All team members
3.	Discuss on the topic	The project plan is drafted.	Chong Jin Jye
4.	Confirm the date, time, and venue for the next meeting.	Reach out to all team members to finalize availability for the next meeting.	Ang Mei Ying

Group Meeting Report [2]			
Date: 19/10/2023	Venue: Classroom ZDK04	Attendees: 1. Chong Jin Jye 2. Ang Mei Ying 3. Low Ann Gie 4. Nor Adlin Sofea Binti Nor Hairudin	
Time: 8:45am - 10:00am	SCL Leader: Nor Adlin Sofea Binti Nor Hairudin		
No.	Task List	Progress Task / Table Involves / Remarks	Person in Charge (PIC)
1.	Collect relevant background information that provides context for the project from each team member and complete the introduction and background from content that we discuss	Review and compile the collected information to create a comprehensive overview that contributes to the project's introduction and background.	Chong Jin Jye
2.	Collaborate with team members to identify the objective of project	Encouraging team members to share their thoughts and ideas regarding the project's purpose	Nor Adlin Sofea Binti Nor Hairudin
3.	Define the scopes of project	Collaborate with team members to gather insights and perspectives on the scope	Nor Adlin Sofea Binti Nor Hairudin

Group Meeting Report [3]			
Date: 20/10/2023	Venue: FSK15	Attendees: 1. Chong Jin Jye 2. Ang Mei Ying 3. Low Ann Gie 4. Nor Adlin Sofea Binti Nor Hairudin	
Time: 8:15am - 10:00am	SCL Leader: Chong Jin Jye		
No.	Task List	Progress Task / Table Involves / Remarks	Person in Charge (PIC)
1	Discuss ideas for all potential entity	To finalise all the entities	All team members
2.	Create ERD by using draw.io	Identify entities, attributes, primary key, foreign key and the type of relationship for each entity	Chong Jin Jye

Group Meeting Report [4]			
Date: 22/10/2023	Venue: Microsoft Teams	Attendees: 1. Chong Jin Jye 2. Ang Mei Ying 3. Low Ann Gie 4. Nor Adlin Sofea Binti Nor Hairudin	
Time: 2:30pm - 5:00pm	SCL Leader: Chong Jin Jye		
No.	Task List	Progress Task / Table Involves / Remarks	Person in Charge (PIC)
1.	Finding 2 case studies relevant to project title	Through research efforts, two case studies directly relevant to the project title have been identified.	All team members
2.	Discuss and state the comparison between 2 case studies	Summarise key findings and insights from the selected case studies.	Chong Jin Jye

Group Meeting Report [5]			
Date: 26/10/2023	Venue: Classroom ZDK04	Attendees: 1. Chong Jin Jye 2. Ang Mei Ying 3. Low Ann Gie 4. Nor Adlin Sofea Binti Nor Hairudin	
Time: 9:00am – 10:00am	SCL Leader: Low Ann Gie		
No.	Task List	Progress Task / Table Involves / Remarks	Person in Charge (PIC)
1.	Discuss ideas for superclass-subclasses, constraint and subtype discriminator.	Identify the element in EERD	All team member
2.	Create EERD by using draw.io	Identify entities, attributes, primary key, foreign key and the type of relationship for each entity	Low Ann Gie and Ang Mei Ying

Group Meeting Report [6]			
Date: 11/12/2023	Venue: Microsoft Teams	Attendees: 1. Chong Jin Jye 2. Ang Mei Ying 3. Low Ann Gie 4. Nor Adlin Sofea Binti Nor Hairudin	
Time: 7:30pm – 9:45pm	SCL Leader: Ang Mei Ying		
No.	Task List	Progress Task / Table Involves / Remarks	Person in Charge (PIC)
1.	Create data by using excel	Generate data based on the EERD	Ang Mei Ying and Low Ann Gie
2.	Create database and tables by using MySQL	Create the necessary tables within the newly created database, specifying columns, data types, and any constraints.	Ang Mei Ying and Low Ann Gie
3	Insert data into each table by using MySQL	Verifying the successful insertion of data	Chong Jin Jye and Nor Adlin Sofea Binti Nor Hairudin
4	Divide 10 MySQL query part for each team members	Clearly communicate the scope and requirements of each assigned query part.	Chong Jin Jye

Group Meeting Report [7]			
Date: 15/12/2023	Venue: Amphitheatre	Attendees: 1. Chong Jin Jye 2. Ang Mei Ying 3. Low Ann Gie 4. Nor Adlin Sofea Binti Nor Hairudin	
Time: 12:30pm – 2:15pm	SCL Leader: Chong Jin Jye		
No.	Task List	Progress Task / Table Involves / Remarks	Person in Charge (PIC)
1.	Team leader provides an overview of the project's overall status.	Summarise the overall project status	Chong Jin Jye
2.	Each team member briefly reports on their progress.	Make sure the team is on track to meet established goals.	All team members
3.	Team leader assign work to all team member	- Business rules is assigned to Nor Adlin Sofea Binti Nor Hairudin - Data dictionary is assigned to Ang Mei Ying and Low Ann Gie - References are assigned to all team member	Chong Jin Jye

Group Meeting Report [8]			
Date: 30/12/2023	Venue: Microsoft Teams	Attendees: 1. Chong Jin Jye 2. Ang Mei Ying 3. Low Ann Gie 4. Nor Adlin Sofea Binti Nor Hairudin	
Time: 2:00pm-4:30pm	SCL Leader: Nor Adlin Sofea Binti Nor Hairudin		
No.	Task List	Progress Task / Table Involves / Remarks	Person in Charge (PIC)
1.	Discuss about normalization	Identify the 1NF, 2NF, 3NF, partial dependency and transitive dependency	Ang Mei Ying, Low Ann Gie

Group Meeting Report [9]			
Date: 5/1/2024	Venue: Microsoft Teams	Attendees: 1. Chong Jin Jye 2. Ang Mei Ying 3. Low Ann Gie 4. Nor Adlin Sofea Binti Nor Hairudin	
Time: 8:00pm- 10:50pm	SCL Leader: Low Ann Gie		
No.	Task List	Progress Task / Table Involves / Remarks	Person in Charge (PIC)
1.	Finalize the project report	Update all project documentation and checking for error	All team members
2.	Prepare for presentation part	Distributed the turn for presentation and discuss about what going to present	All team members
